

Mikos: Genetic Algorithm- GeneticAlgorithm.Java, Population.java, Solution.Java, Items.java,

Elliot: Dynamic Programming solutions (BottomUp.java, MemoizedRecursive.java ComputationTable.java), helped write some of the test code (random test cases) in Knapsack.java, python script for graphing

Rythm: Recursive Algorithm, Main Test File for recursive, genetic and dynamic algorithms and test csv files (Files: RecursiveAlgorithm, Knapsack.java, Item.java, Game-Data.csv, Course-Data.csv, Stock-Data.csv)

Fay: Superincreasing array generator and subset sum problem implementations. Testing for superincreasing array generator and subset sum problem implementations. (Files: Super.java, SubsetSum.java, SuperTest.java, SubsetSumTest.java)
